Paul Wyatt appointed as National Specification Manager at GEZE UK

[GEZE UK](#), a leading manufacturer and provider of door, window and access control systems, has appointed Paul Wyatt as its new **National Specification Manager**, strengthening its support for architects, specifiers and consultants nationwide.

In the role, Paul will lead the GEZE UK specification team and work closely with architectural practices and design teams to support the specification of GEZE solutions across a wide range of building sectors. A key focus of the position will be the delivery of technical guidance and **RIBA-accredited CPD presentations**, helping architects navigate compliance, performance and best practice at early design stages.

Paul brings over 20 years of experience in the specification sector, having previously held various senior roles within the industry, including a previous stint with GEZE UK from August 2003 to September 2009. With his strong background in specification support, he will support projects from concept through to delivery.

Commenting on the appointment, Paul said:

"I'm delighted to be joining GEZE UK again at a time when the role of specification and technical compliance has never been more important. GEZE has a strong reputation for quality, innovation and support, and I'm looking forward to working with architects and project teams to help deliver safe, compliant and well-designed buildings."

Andy Howland, Sales & Marketing Director, at GEZE UK, added:

"The appointment of Paul significantly enhances our national specification offering. His deep understanding of the architectural and construction landscape will play a key role in supporting our customers from early concept through to project completion."

GEZE UK continues to invest in its specification and CPD programme, providing architects and consultants with expert insight into door control, access solutions, smoke and heat exhaust ventilation (SHEV), and evolving building regulations.

Note to editors:

3 | 3

Founded in Germany in 1863, GEZE is one of the world's leading manufacturers of door and window control systems. Investing millions in research, development and manufacture of innovative solutions, GEZE sets the global standard for advanced door and window technology.

GEZE UK is the official company name and it originates from a German abbreviation, so should always be spelt in capital letters. The background: In 1901 Master locksmith Victor Gretsche joined the company and the business was renamed Gretsche & Co. GmbH. GRETSCHCO was abbreviated to **GE** for the German pronunciation of the letter G and **ZE** for the letter C.
